*The series of platform trucks is the most popular,
that Balkancar Dunav Co.
offers for in-plant and town transport.*

□ Well investigated ergonomics holds out a convenience, that is supplemented to the exceptional mobility and easy control.

□ These trucks performance features allow for their use with various loads.

□ The Balkancar Dunav Co. platform trucks family gives the working staff additional possibility of operating with rational and reliable machines in confirmation of the great experience of the company.

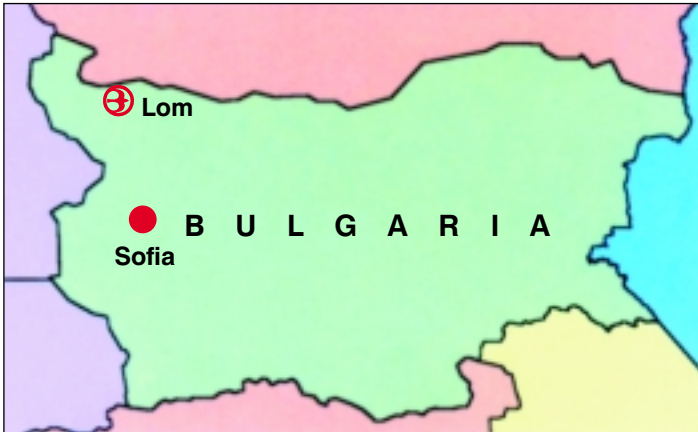

□ Economical at the purchase, the trucks are economical for maintenance too.

□ Their perfect profitability saves the battery and furthers the duration of tyres' life.

□ We express our gratitude to all customers' recommendations for improving our trucks.

DUNAV LOM

BALKANCAR DUNAV – a subsidiary of Balkancar Holding Co., is situated in a town with the closest to Sofia river port on the large water way to Central and East Europe. The industrial trucks assembly plant has a well developed infrastructure.

The location advantages and the new production facilities, both favourable for production and trade, are intensified by its specialization within **BALKANCAR HOLDING** system.

The product range includes electric-powered trucks mainly for exports to the countries of Europe and the former Soviet Union, and for Africa, Asia and America, as well.

Being one of the 5 manufacturers of finished products within **BALKANCAR HOLDING**, the company offers 8 product types of future market demand.

These are electric platform trucks, dumpers, tractors, three-and-four-wheel fork lift trucks, passenger trucks and platform trailers.
